- 2023 – Started Web Development
- 2024 – Projects Completed (Netflix Clone, College ERP)
- 2025 – School Management System Completed, Graduation Pursuing

TECHNICAL SKILLS

- Programming: Java, C++, C
- Data Structure (Basic)
- Web: HTML, CSS
- Tools: VS Code, GitHub
- Database: MySQL basics

KEY HIGHLIGHTS

- Developed School Management System project using Java and MySQL.
- Good understanding of Java Programming and Object-Oriented Concepts.
- Basic knowledge of Data Structures and Database Management System.
- Strong problem-solving and logical thinking ability.
- Quick learner with the ability to adapt to new technologies.

PROJECTS

1. School Management System

Technology: HTML, CSS, JS, Java, MySQL

Developed a School Management System to manage student records, teacher details, attendance, and fee management. The system helps automate school administrative tasks and improves data management using Java and MySQL database.

2. College ERP (Frontend)

Technology: HTML, CSS

Designed and developed the frontend pages of a College ERP system using HTML and CSS. Created multiple pages such as student dashboard, login page, course details, and other interface components. The project was developed using a mobile phone.

3. Netflix Clone (Frontend)

Technology: HTML, CSS

Created a Netflix homepage clone using HTML and CSS. Designed responsive UI with movie banners, navigation bar, and layout similar to the Netflix platform to improve frontend development skills.
